

THE TRI-WEEKLY YEOMAN.

TUESDAY, OCTOBER 11, 1871.

The alarm of fire on Saturday night proceeded from the saw-mill of Johnston & Mahoney, just below the railroad bridge. A spark from the furnace, it seems, had found its way to some dry saw-dust beneath the floor of the mill, and smoldered there until near the hour of nine o'clock, when it flamed up and ran rapidly to the roof, threatening the destruction of the mill. The alarm was given and the engine was soon on its way, but before it reached the scene the fire had been put beyond danger by the neighbors and the hook and ladder company, which did valuable service. Fortunately there was a tank full of water close by, and to this, and the fact that there was no wind, is due the escape from a large fire. The damage is slight, only about ten feet square of the roof being burned.

KENTUCKY MILITARY INSTITUTE MAGAZINE.—We are in receipt of the September number of this monthly, edited by the following board of editors, selected by the cadets from the corps: J. P. Groome, T. H. Bridgeforth, J. C. C. Newton, J. M. Thompson, and Gus. C. Mathews. This is the second year of its publication, and it is to be hoped that it will receive encouragement sufficient to make it a permanent institution, since its influence, if conducted in the proper spirit, as seems to be the determination of those who have it in charge, cannot fail to be beneficial. The magazine contains thirty pages of reading matter, and is published in neat form, at the Louisville Ledger office. Terms, \$2.50 per annum.

ROAD IMPROVEMENT IN SOUTH FRANKFORT.—On Saturday the bidings were opened for turning the road on the south side of the river, from the railroad bridge to the 8222 in front of Judge Drake's house, in South Frankfort. The contract was awarded to Williams and Gore, the lowest bidders. The work has been surveyed and laid off by Mr. W. McCloy, an energetic young engineer, and the contractors will begin work at once, and finish the job in about six weeks. This is a much needed improvement, as besides opening up a new route from South Frankfort to the Flat Creek country, it will afford one of the best pleasure drives about the city.

The whole northwest is suffering from the severe drought known for a quarter of a century, and fires are prevailing to an alarming extent in Michigan, Illinois, Wisconsin, Minnesota, and Iowa, destroying woods, houses, and other property. In the far West, the prairies are alive, and from all we can gather, we have the prospect of a fine, old-fashioned, smoky Indian summer.

In addition to the veterans of 1812, whom we mentioned in our last as having gone from here to attend the meeting in Lexington the other day, the following were also present from this county: Warren Parker, aged 75; J. L. McDowell, aged 77; and John B. Bell, aged 78.

We are gratified to know that our friend, Capt. J. M. Harris, late of the Clark County Democrat, has resumed his connection with the press of the State by becoming associated with the editorial management of the Lexington Observer and Reporter. We are glad to welcome him back.

The Al. Hensley reported as wounded in an affray at Peak's Mill, the other day, in a dispute about a debt of twenty-five cents, was not Alfred Hensley, Esq., of this city, as some may have erroneously inferred, but Alkanah Hensley, who resides in the lower part of the county, in the Peak's Mill precinct.

MILES' SALE.—Remember that John E. Miles will sell to-morrow, positively and without reserve, his valuable mill property on Glenn's creek, together with a variety of stock and other personal property. See advertisement.

Notice.—Jim Welch has opened his restaurant. Go see him, at the "Little Palace," Oct. 10-31.

Speaking of large castor oil plants, Dr. Averil, of this city, has one twelve and a half feet high, with a stalk twelve inches in circumference, measuring forty-four feet around the branches.

Gen. Ate Buford has had great success in his Nashville and Memphis racing campaign. He won four races at the former place with Nellie Gray, whose purses this season are said to amount to \$12,000.

Hon. E. Ramsey Wing, United States Minister Resident to Ecuador, has been sending cigars to some of his editorial friends, and they are pulling both him and them nicely.

The Kentucky Times, published at Madisonville, has changed its name to the "Madisonville Times," and has been also improved in its typographical appearance.

The Mississippi river is 33 feet six inches below the high water mark of 1867, which is lower than it has ever been for twenty or thirty years.

The report of the veterans' meeting in our last, containing Col. Breckinridge's address, should have been credited to the Lexington Press.

The sentence of Rochefort, the Paris Communist, which was imprisonment for life, has been commuted to banishment from French territory.

The finest rose we have seen this season was sent us Saturday by our friend Dr. J. Russell Hawkins. It was the Lorraine.

President Grant exhibited a number of horses and cattle at the St. Louis fair, but did not take any premiums.

John Harper offers a reward of \$5,000 for the arrest and conviction of the murderers of his brother and sister.

The question of the day is, have you any Chicago property?

Friday last was a great day in Cincinnati, the occasion being the inauguration of the Tyler Davidson Fountain, a superb work of art, presented to the city by Henry Probasco, Esq., a wealthy citizen, in furtherance of an idea conceived by his brother in law, Tyler Davidson, deceased, and as a monument to his memory. It is composed of black basalt, granite, porphyry, and bronze, and was designed and executed in Munich, three years having elapsed since it was first begun. Originally its cost was estimated at thirty thousand in gold, but the design expanded until it is said to have cost four times that sum. The following is a description.

The entire height from the street is 47 feet to the top of the figure, which is 7 feet high. The idea presented by this fountain is to represent the blessings and benefits of water. The principal figure represents the genius of water, from whose hands falls the ever-flowing rain, the blessing of God, which is caught by a peasant on the right, whose hands are thirsting for it. On the opposite side stands a citizen, imploring water for his burning house. The shell of the opposite side partly hides a figure, who, by a vigorous stroke, opens a spring for one on the right, who, with his affectionate daughter, desires to drink. On the other side is a mother leading her child to the bath, invited by a nymph playing with the spring jets of water. Four jets, two from below and two from above, add life and variety to the scene.

Four bas-reliefs below represent the utility of water, viz: navigation, mills, fisheries, steam.

On the four corners are figures of children suggesting the enjoyments connected with water, viz: A girl adorning herself with pearls, a boy fishing for shells, a second sitting on skates, a third finding corals and crystals.

The water coming from the leaves of the shell is to be used as fresh drinking water by a separate conduit pipe, while the four upper jets only belong to the decoration.

A CARD.—The undersigned desire to return their thanks to the firemen and citizens of Frankfort, who responded to the alarm so promptly, and labored so successfully in extinguishing the fire at their saw-mill on Saturday night.

JOHNSTON & MAHONEY.

THE DOLLAR STORE—NEW INDUCEMENTS.—By his advertisement elsewhere it will be seen that Joe Harris, at the red house dollar store, on St. Clair street, offers extraordinary inducements to persons wishing to buy goods in his line. The advertisement speaks for itself.

It was reading such sentimental effusions as the following, which made us think the editor of the Henderson News a young man, but lately out of his teens. We were surprised, therefore, when we met our friend Harrison at the Press Convention to find him well past the meridian of life, but with his sands of life as far from being run out, as indicated by vitality and cheerfulness of spirit, as any one of his gaitage age of whom we know. Just read how touchingly he recalls his early youth:

In our younger days we loved to wander at sunset through leafy groves and listen to the whispered converse of laughing zephyrs. And then, anon, with added joy, to row our tiny bark far out on the placid bosom of the river, and then to watch her, tottered in the flow radiance of a silvered moon, while she entranced our soul with warm, impassioned songs of southern climes.

And then see how richly Len. Paxton, the spunky local of the Palmetto Kentuckian, tries to destroy the illusion of the sweet picture:

What a curious fellow that Henderson man must have been in his younger days—what when he was a boy he never slid down on anybody's cellar door, and then, anon, swung in a gate and looked molasses crazy—such things were not ethereal enough for him. He had no business watching her, though, when she was bathing in the mellow radiance.

Snow.—Says the Palmetto Kentuckian: "A few timid flakes of snow floated through the air yesterday morning, but, being in a melting mood, they disappeared very prematurely."

A. HARRIS.—We call attention to the advertisement of this old reliable house, to be found in another column, from which it will be seen that it is in receipt of a full and well-selected stock of new goods. Give them a call.

The passenger trains on the Louisville, Cincinnati and Lexington railroad were using the Westinghouse atmospheric brake yesterday.

GOOD FOR MASON COUNTY.—On Saturday, Mason county voted on a proposition to subscribe \$100,000, and carried it by a thousand majority.

The Salt River bridge of the Louisville and Nashville Railroad at Shepherdstown, was destroyed by fire on Saturday.

Messrs. W. A. Guines & Co. began distilling at the Hermitage Distillery yesterday.

THE SONG MESSENGER.—We find upon our table a monthly publication of the above title. As its name indicates, it is devoted to music and musical literature. The number for the present month contains song and chorals, "Meet me, Love, at Moonrise," "Castles in Spain," "Speak Softly to the Fatherless," "If we knew," "The Sailor's Serenade," &c. Published by Root & Cady, Chicago, Ills., at \$1.00 per year.

GRAND OPENING.—Mrs. C. E. Ayers will open her splendid stock of fall and winter millinery goods on Thursday, October 12th, 1871, consisting of French fashions, feathers, French felt hats, pattern bonnets, &c., &c.; also, choice novelties selected with them. Ladies will please call and examine for themselves.

The American Stock Journal is always a welcome visitor, and filled with interesting matter. The October number, now before us, is a remarkable one. It takes no step backward, but improves with age. As is usual with monthlies at this time of the year, it is throwing out feelers for its next volume of 1872, and offers the last three numbers of this year gratis to all new subscribers who send in their subscriptions before the first of January. It is published at one dollar per year, by N. P. Boyer & Co., Parkersburg, Chester Co., Pa.

The quarterly court was in session yesterday.

TERRIBLE CONFLAGRATION—CHICAGO IN ASHES.

Chicago, October 8.—12:30 A. M.—The most terrible conflagration that ever occurred in this city broke out about an hour and a half ago, having started from a small building, and in a few minutes the entire structure was in flames. The fire started in a large planing mill, situated between Clinton and Canal, and Van Buren and Jackson streets, about the center of the block formed by these streets.

The wind was blowing very fresh, and the flames spread with almost incredible rapidity, and in a few minutes the entire structure was a mass of fire. The immediate vicinity is built up mainly with small wooden tenement houses and two-story frame buildings, occupied as groceries, saloons, &c. The inmates of many of these houses, startled from their slumber, had barely time to rush from the houses in their scanty attire, leaving their household goods to destruction.

In several instances children were hastily wrapped in blankets and quilts, to break the force of their fall, and thrown from the second-story windows to the ground. When the alarm was sounded for this fire.

Another, of considerable magnitude, was burning on Wells street, near Adams. Several engines were necessarily kept at work upon this. The rest of the engines in the city were soon on the ground, but the fire had spread over so large an area that their efforts seemed of no avail.

Between Canal street and the river were several lumber yards, which were entirely destroyed. The fire had made a clear sweep from Van Buren street north three blocks to Adams, and west to Clinton, three blocks from the river. The wharves between Van Buren and Jackson streets are burning, and the wood work of the western approach to Adams street bridge is destroyed. A large coal-yard, containing thousands of tons of coal, and situated between the tracks of the Chicago and Alton and Pittsburgh and Fort Wayne railroads and the river, is on fire and burning furiously. The immense grain elevator of Vincent, Nelson & Co., one of the finest in the city, is immediately adjoining, and, although intended to be fire-proof, there seems to be little doubt but that it will be destroyed, as the intense heat to which it is subjected will crack the slate with which it is covered, both roof and side.

It contains many thousands of bushels of grain, of all kinds. The depot of the Pittsburgh and Fort Wayne, Chicago, Alton and St. Louis railroads is situated north of Adams and between Canal street and the river. One of the buildings, a light wood structure, occupied as an express office, was in flames at midnight, and is undoubtedly destroyed. The scenes in the vicinity of the conflagration are indescribable.

So far as could be ascertained when the reporter left the scene of the fire, no lives are known to be lost; yet it will be miraculous if such should prove to be the case.

LATER.—1:40 A. M.—The fire is apparently raging as fiercely as ever. The block of buildings on the north side of Van Buren street, thought an hour ago would be saved, are now wrapped in flames. The elevator is safe so far, and the fire seems to be spreading south and west, notwithstanding the wind is now directly from the south and blowing hard. The glare from the blazing buildings lights the streets half a mile away, so that one may see to read. The entire fire department is now on the ground, and making most superhuman efforts to stay the flames.

STILL LATER.—One third of the city in ashes. All banks, insurance offices, warehouses, elevators, destroyed. Fully ten thousand buildings burned. Fire still raging. The whole business portion of the city in ruins, from Harrison street north to Chicago avenue and east of the river to Lake avenue, three miles in length and a mile and a half wide. Every hotel, bank, express office, telegraph office, theatre, and newspaper office burned.

President W. L. Gordon, who has just returned from Evansville, informs us that the contract for the completion of the Madisonville and Shawanonego railroad has been signed by General Weylaw, and that Mr. Douglas, the contractor, has graded the Louisville and Cincinnati road, and said to be one of the most reliable and successful contractors in the United States, will commence work at Caseyville on Monday next, with a large force. This is gratifying intelligence, and we may soon expect a completed road. President Gordon is very much elated over the prospects, and feels that the enterprise committed to his management is now upon a firm basis.

FINE MARE, SOLID.—Mr. N. Long sold to G. R. West, his Mambrino mare, 3 years old, for \$2,000.

The Purological Journal for October has come to hand. A list of articles, illustrated and otherwise, is upon its table of contents. We would particularly mention the following: William Chaffin, Governor of Massachusetts; The Youthfulness of the World, or the Signs of its Perpetuity; E. O. Openers; Foster Blodgett; Men, as husbands; Witch-Hazel; Grindlers; New Studies in Physiology, or the Model of Respectability; Human Food, its Preparation; Street Signs in China; Agriculture and American Indifference; Bad Air; Writing by Dashes; Alice and Phoebe Gay; Some Hints on Pruning; The Deserted Village, with new illustrations; Alexander H. Stephens' Head; Girls' Education, &c. Terms \$3 a year. S. R. Wells, New York.

ALASKA.—Where on this globe can we go beyond the omnipresent Yankee? Landing at Sitka, we had walked but a short distance into the town when we reached the northern depot of Dr. Ayer's medicines in full display among the huts, shanties and courts of these boreal tribes. There the familiar, homelike names of his Cherry Pectoral, Pills, &c., salute us from the exterior and the interior of a store which shows more business than its neighbors, and proves that these simple but sure remedies are even more necessary to savage life than to ourselves, where they visit every fireside.

Correspondent Alexander Journal.

The many friends of Paul R. Shipman will be glad to learn that he has returned to the United States, but his numerous admirers in Kentucky will regret that he will make his home in the East. He has located at Beverly, New Jersey.—Louisville Ledger.

TORCHING INCIDENT.—A little news-boy attempting to jump from a street car, the other day fell under the car and was fearfully mangled. As soon as he could speak he called piteously for his mother, and a messenger we sent at once to bring her to him. On her arrival she hung over the dying boy in agony of grief. "Mother," he whispered, with a painful effort, "I sold four newspapers—and the—the money is in my pocket." With the hand of death upon his brow, he laid the money on the ground, and a messenger we sent at once to bring her to him. On her arrival she hung over the dying boy in agony of grief. "Mother," he whispered, with a painful effort, "I sold four newspapers—and the—the money is in my pocket." With the hand of death upon his brow, he laid the money on the ground, and a messenger we sent at once to bring her to him. On her arrival she hung over the dying boy in agony of grief. "Mother," he whispered, with a painful effort, "I sold four newspapers—and the—the money is in my pocket." With the hand of death upon his brow, he laid the money on the ground, and a messenger we sent at once to bring her to him. On her arrival she hung over the dying boy in agony of grief. "Mother," he whispered, with a painful effort, "I sold four newspapers—and the—the money is in my pocket." With the hand of death upon his brow, he laid the money on the ground, and a messenger we sent at once to bring her to him. On her arrival she hung over the dying boy in agony of grief. THE ARTS AND SCIENCES.

THE OZOKERIT CANDLES.

Some beautiful candles, made according to a new process, are noticed in the foreign journals. This substance is a wax-like mineral, translucent, fusible like beeswax, and slightly bituminous to the smell. It is found at the foot of the Carpathians, near Slank, beneath a bed of bituminous slate, in masses of from eight to one hundred pounds; and it also occurs at Ureth, near Newcastle, England. When pure, it is colorless, and emits a finer and more brilliant light than any other substance yet used in the manufacture of candles. Sub products of this mineral also yield a substance possessing great insulating powers.

In preparing the raw material for this purpose it is first distilled, the result being an oily distillate, the solid and liquid constituent parts of which are separated by pressure. The pressed solid material is then purified, by mixing and stirring, by sulphuric acid, when melted; and, after standing for some time, in order to effect its complete separation from the acid, the floating melted material is carefully drained, and thoroughly washed with hot water. The water having been removed, the material is repeatedly filtered through animal charcoal until the requisite degree of whiteness is obtained. Or, instead of the above method, the material may be repeatedly mixed with naphtha and pressed; the small portion of naphtha remaining in the pressed cake being removed by the introduction of the steam until no more odor is perceptible, and then the only portions which have been removed by pressure are acidified with sulphuric acid, are redistilled and treated with alkaline lye.

In the candle making process, the cakes of ozokerit are melted, and the candles cast in the same way as paraffine. The greatest advantage claimed for these candles is their high melting point, which ranges at about 140° Fahr., and the dry and wax-like character of the material. They burn with a large, white, powerful flame, and do not accumulate, in the cup surrounding the wick, a large quantity of liquid matter. In appearance they are beautiful, and come out of the moulds with a brilliant surface.

PROTECTION FROM FIRE DAM IN MINES.

M. Girard has devised a method for preventing the disastrous consequences of explosion by fire-damp, or at least for limiting them to mere pecuniary damage, without loss of life. The simple peculiarity of this plan consists in determining, explosions by means of the electric induction spark of Puhnkoff's machine before the miners descend into the galleries. After descending the way in which the wires ought to be arranged, he says that every day, before the miners go to their work several sparks must be let off in the galleries, when, if an explosion occurs, the gas will be destroyed; if, on the contrary, after several sparks there is no explosion, there is no reason why there should be with an ordinary lamp. It is well known that a simple practice has been long in use though not with the induction spark—men being sent down into the galleries with lights fixed to long poles. They creep along holding the lights aloft—is the fire-damp always accumulates at the foot of the galleries—and thus produce explosions which are harmless in proportion to the frequency with which the operation is performed.

METEOROLOGICAL INVESTIGATIONS.

In an examination made by Professor Marcet, of Geneva, of a long series of meteorological observations, made with reference to the influence of the moon on the weather, he found that the influence of the moon must be regarded as nothing. On the question of changes of weather, he found by calculation that the average probability of a change of weather on any day is 0.120, that the probability of a change of weather on the day of full moon is 0.121, and new moon, 0.125; for the day after the full moon, 0.143, and for the day after the new moon, 0.148. But at new moon and full moon these changes were found to have been from full to fair one hundred and six times where they were from fair to full seventy-seven times. The conclusion arrived at by Bugaud on this point was that eleven times out of twelve the weather during the whole moon follows the weather of the fifth day of the moon, on the sixth day, it remains as it was on the fifth, and nine times out of twelve it follows the fourth day on the sixth day it follows the fourth.

Mr. Harrison, the eminent meteorologist, ascertained from a study of the thermometric observations at Greenwich, that there is a tolerably constant increase of temperature from the new moon to the full, and a decrease from the full moon to the first, and that the maximum of rainy or cloudy days corresponds with the first half of the lunar period and the maximum of fine, clear days with the last half—the fact, in this case, being attributed by Mr. Harrison to the dispersing action of the full moon upon the clouds.

This dispersing action has been accounted for thus: The heat rays of the moon are almost unappreciable even to the most delicate instruments. Now Melloni found that the index of an extremely sensitive thermo-electric pile scarcely moved when a moonbeam was concentrated on it by lens so powerful that a sunbeam thus converged would have burned platinum into vapor. The heat rays sent from the moon, therefore, must be intercepted and absorbed by the earth's atmosphere; and, being thus concentrated in the upper strata, the heat necessarily warms that region and thus dissipates the clouds and hinders their formation. The full moon will, therefore, clear the sky, and by so doing, will lower the temperature of the earth, keeping its heat from radiating into space. The new moon, deprived of some time of the sun's heat, is incapable of exerting a similar influence, and the rainy or cloudy days are therefore more frequent during the first half of the lunar period.

PAPER FOLDING MACHINE.

The operations of both folding and stitching are ingeniously combined in a machine invented in Switzerland, and which can be worked by either hand or steam, a boy being sufficient to manage it. The sheets are put singly under the points of the machine, in the same manner as in the printing machine. A knife moving up and down takes hold of the sheet lengthwise in the centre, draws it through a slit in the table, and the first fold is made. The knife returns instantly, and the sheet is taken by a second vertical knife, folding it at right angles to the first fold. Before the third fold is made the stitching operation commences; two needles, provided with hooks, passing through the middle of the sheet about an inch distant from each other, draw through the cotton unwound from a bobbin and cut to the required length. The sheet is then folded a third time by a knife netting at angles with the second one, which most ingeniously takes hold of the sheet and pushes it between a pair of ribbed rollers, whence it passes directly to another pair of polished rollers, and remains glazed on the table. So correctly and truly does this machine work, that the sheets are folded and stitched with the utmost exactness in the center, and are so well pressed that the hinder can immediately begin wrapping. It is, moreover, so constructed as to fold the largest as well as the smallest sheets; and both the stitching and the pressing apparatus, or each singly, may be detached by the loosening of a screw.

A girl of 17 years lented a farm in Kansas some three years ago. The land was perfectly wild, and she employed no male help; but her success has been such, on Tuesday last week, she was offered for her farm a sum ten times the amount she paid for it. She refused the offer, and says that in five years more she will retire to the East, and live on the interest of her property.

LEXON JUICE.—Lexon juice is one of the most efficacious medicines which can be applied to diphtheria.

DIRECTOR.

STATE OFFICERS.

Governor—PRESTON H. LESLIE.
Secretary of State—A. J. JAMES.
Assistant Secretary of State—W. M. B. BORTS.
Attorney General—JOHN RODMAN.
Auditor—D. HOWARD SMITH.
Treasurer—JAMES W. TATE.
Register—J. A. GRANT.
Superintendent Public Instruction—H. A. M. HENDERSON.
Adjutant General—JAMES A. DAWSON.
Quartermaster General—FAYETTE HEWITT.
Inspector Commissioner—GUSTAVUS W. SMITH.
Assistant Insurance Commissioner—HENRY T. STANTON.
Librarian—GEORGE B. CRITTENDEN.
Keeper of Penitentiary—J. W. SOUTH.
Public Printer—S. I. M. MAJOR.
Public Binder—JOHN MARTIN, JR.

COURT OF APPEALS.

Chief Justice—W. S. PRYOR.
Associate Judges—M. R. HARDIN, D. J. PETERS, and W. LINDSEY.
Reporter—W. P. D. BUSH.
Clerk—ALVIN DEVAL.

CITY DIRECTORY.

Mayor—E. H. TAYLOR, JR.
Police Judge—JOHN H. MAJOR.
Clerk—S. C. SAYRE.
Attorney—JOHN W. RODMAN.
Treasurer—J. R. GRAHAM.
Marshal—H. HYDE.
Board Common Councilmen—E. H. TAYLOR, JR., A. G. BRAWNER, JAS. G. UDDLEY, B. F. MEER, A. J. JAMES, W. P. D. BUSH, L. TOBIN, M. H. P. WELLS.
Board School Trustees—G. C. DRAKE, D. L. HALL, J. G. HATCHETT.

FRANKLIN CIRCUIT COURT.

Judge—G. C. DRAKE.
Commonwealth's Attorney—J. D. LILLARD.
Clerk—WALTER FRANKLIN.
Sheriff—JOSEPH ROBINSON.
Jailer—ROBERT W. LAWLER.
Assessor—PETER JETT.
Coroner—J. R. GRAHAM.
Court convenes Third Monday in February and last Monday in August. Chancery Term—Fourth Monday in June. Fiscal Term—Last Monday in January.

FRANKLIN COUNTY COURT.

Presiding Judge—R. A. THOMPSON.
Clerk—JAMES G. CRUICKSHANK.
County Attorney—IRA JUDAN.
Court convenes first Monday in each month.
Franklin County Quarterly Court—Holds its terms on the second Monday in January, April, July, and October.

JUSTICE'S COURTS.

First District. Geo. W. Gwin—Second Monday in March, June, September, and December. Philip Swigert—First Saturday in March, June, September, and December. F. D. Redish, Constable.
Second District. B. F. Head—Fourth Saturday in March, June, September, and December. G. C. Hughes—On Saturday after the First Monday in March, June, September, and December. James Hughes, Constable.
Third District. William Morris—On First Saturday after second Monday in March, June, September, and December. Milton Wigginton—On Thursday after second Monday in March, June, September, and December. Flournoy Satterwhite, Constable.
Fourth District—C. V. Williams and John W. Jackson—Both on First Saturday in March, June, September, and December. G. B. Harrod, Constable.
Fifth District. Joseph Harrod—Fourth Friday in March, June, September, and December. Nelson Moore—On Third Friday in March, June, September, and December. George Harrod, Constable.

OFFICIAL.

Proclamation by the Governor.

\$300 REWARD.

COMMONWEALTH OF KENTUCKY, EXECUTIVE DEPARTMENT.
WHEREAS, IT HAS BEEN MADE KNOWN to me that STEPHEN SIMPSON stands charged with the murder of Jacob Kasten, in More County, on the 7th of August, 1870, and is now a fugitive from justice, going at large. Now, therefore, I, PRESTON H. LESLIE, Acting Governor of the Commonwealth, do hereby offer a reward of THREE HUNDRED DOLLARS for the apprehension of said Stephen Simpson, and his delivery to the jailer of More county.
In Testimony Whereof, I have hereunto set my hand and caused the seal of the Commonwealth to be affixed. Done at Frankfort, the 25th day of August, A. D. 1871, and in the 25th year of the Commonwealth.
P. H. LESLIE.
By the Governor: SAMUEL B. CHURCHILL, Secretary of State.

DESCRIPTION.

About 25 years old; light hair; blue eyes; about 5 feet 7 inches high; weighs about 145 pounds; quick speech; tone of voice hearty, loud, boisterous; swears profanely very freely; ready in conversation; his voice was shrill and clear, and a little hoarse; rather a smooth face, with very little beard, and that of a light color. aug 25-30

Proclamation by the Governor.

\$500 REWARD.

COMMONWEALTH OF KENTUCKY, EXECUTIVE DEPARTMENT.
WHEREAS, IT HAS BEEN MADE KNOWN to me that ZACHARIAH PASH stands indicted in Nelson Circuit Court with the murder of Joseph R. Osborn, on the 30th day of August, 1870, and is now a fugitive from justice, going at large. Now, therefore, I, PRESTON H. LESLIE, Acting Governor of the Commonwealth, do hereby offer a reward of FIVE HUNDRED DOLLARS for the apprehension of said Pash, and his delivery to the jailer of Nelson county.
In Testimony Whereof, I have hereunto set my hand, and caused the seal of the Commonwealth to be affixed. Done at Frankfort, the 21st day of July, A. D. 1871, and in the 25th year of the Commonwealth.
PRESTON H. LESLIE.
By the Governor: S. B. CHURCHILL, Secretary of State.

DESCRIPTION.

About 21 years old; near six feet high; dark hair inclining to curl; thin mustache; and light complexion. jul 21-30

Proclamation by the Governor

\$500 REWARD.

COMMONWEALTH OF KENTUCKY, EXECUTIVE DEPARTMENT.
WHEREAS, IT HAS BEEN MADE KNOWN to me that WESLEY VOWEL stands indicted in Nelson Circuit Court with the murder of Joseph R. Osborn, on the 30th day of August, 1870, and is now a fugitive from justice, going at large. Now, therefore, I, PRESTON H. LESLIE, Acting Governor of the Commonwealth, do hereby offer a reward of FIVE HUNDRED DOLLARS for the apprehension of said Wesley Vowel, and his delivery to the jailer of Nelson county.
In Testimony Whereof, I have hereunto set my hand, and caused the seal of the Commonwealth to be affixed. Done at Frankfort, the 21st day of July, A. D. 1871, and in the 25th year of the Commonwealth.
P. H. LESLIE.
By the Governor: S. B. CHURCHILL, Secretary of State.

DESCRIPTION.

About 6 feet high; weighs about 170 pounds; light complexion; light hair; blue eyes; light mustache; a woman named Sarah Warren with whom he lived, to whom he claimed to have been married. jul 21-30

Proclamation by the Governor

\$500 REWARD.

COMMONWEALTH OF KENTUCKY, EXECUTIVE DEPARTMENT.
WHEREAS, IT HAS BEEN MADE KNOWN to me that WILLIAM WOOLRIE stands indicted in Wolfe Circuit Court for the murder of James Spencer, on the 24th of May, 1871, and is now a fugitive from justice, going at large. Now, therefore, I, PRESTON H. LESLIE, Acting Governor of the Commonwealth, do hereby offer a reward of FIVE HUNDRED DOLLARS for the apprehension of said William Woolrie, and his delivery to the jailer of Fayette county.
In Testimony Whereof, I have hereunto set my hand, and caused the seal of the Commonwealth to be affixed. Done at Frankfort, the 19th day of July, A. D. 1871, and in the 25th year of the Commonwealth.
P. H. LESLIE.
By the Governor: S. B. CHURCHILL, Secretary of State.

DESCRIPTION.

Cox is about 20 years old; light hair; about 5 feet 7 inches high; heavy set; a short, red face; blunt nose, and weighs about 155 pounds. jul 19-30
